

This route is suitable for walk, run or cycle. Its a great route to RY Britania following a gentle downhill route by the Water of Leith

Water of Leith Path to RY Britania via "The Shore"

9km, 42m rise, 1.45 hr Walk, 1hr Run, 45 min Cycle

You can split this circle in half by getting the 11 or 16 bus back. There is a "Just Eat" cycle rack at RY Britania, so you can take a bike from Hillside Cresecent cycle down hill and get the bus back!

This circular route takes you down on a combination of quiet roads and a leafy cycle/footpath that meanders beside the Water of Leith

Route:

Turn right out of No11, go over crossroads to end of Brunswick St. Cross Leith Walk to Macdonald Road and continue to end of road. Cross over road and go straight on down a path that runs beside the abandoned "Powder Hall Bowling Club". At end of path is footbridge over the Water of Leith (B). Turn right immediately after bridge onto "Water of Leith Footpath". Follow footpath. It intermingles with a cycle path. You can take either as long as you keep heading towards "Leith".

All the routes are shown on the strava app. Go to your App Store. You only need the free verison. Once set up go to "find friends" and look up **No11 Hotel**. You will see all the routes we have created and can then select the route you want to look at the route in detail. Alternatively use google maps to follow the routes.

At D cross the road bridge and follow round edge of "The Shore". This area opens out with lots of restaurants and bars. They range from Michelin Star, Fine Dining throughg to "Pub Grub". On a sunny day, sitting outside is great.

Follow the shore round to "Ocean Drive" and continue round to the "Ocean Terminal Shopping Center" The RY Britania is on the other side at (F).

Ocean drive is exposed to the Firth of Forth and can be very windy and cold!

Ocean Terminal is a shopping centre with the casual dining brand types of food.

To return from Ocean terminal, either get the 11 or 16 Buses back to No11 or retrace your steps or continue the loop via (E) and Leith Walk. This part of the walk is a gnetle uphill urban walk, which is why we suggest the bus if you have tierd legs.

The roadworks on Leith Walk are for the Tram Extension which should be open in 2022....we hope!
